

DAVID H. CHAE
Curriculum Vitae – ABRIDGED
April 2019

A. EDUCATION

- 2009: Robert Wood Johnson Health and Society Scholars Program
Field: Psychoneuroimmunology
University of California, Berkeley, School of Public Health, Berkeley, CA
University of California, San Francisco, Center for Health and Community, San Francisco, CA
- 2007: Doctor of Science, Harvard University, School of Public Health, Boston, MA
Department of Society, Human Development and Health
Major: Social Epidemiology; Minors: Health Disparities, Social Psychology
Interdisciplinary concentration in Women, Gender and Health
- 2000: Master of Arts, Columbia University, Teachers College, New York, NY
Field: Psychology
- 1999: Bachelor of Arts with Honors, University of Chicago, Chicago, IL
Field: Psychology and Sociology

B. EMPLOYMENT AND FELLOWSHIPS

- 2016 – Present: Human Sciences Associate Professor (named with tenure)
Director, Society, Health and Racial Equity (SHARE) Lab
Department of Human Development and Family Studies
Director, Center for Health Ecology and Equity Research
Auburn University, College of Human Sciences, Auburn, AL
- 2013 – 2016: Assistant Professor (tenured and promoted to Associate in 2016)
Department of Epidemiology and Biostatistics
University of Maryland, College Park, School of Public Health
Secondary: Assistant Professor, Department of Epidemiology and Public Health
University of Maryland, Baltimore, School of Medicine
- 2009 – 2013: Assistant Professor, Department of Behavioral Sciences and Health Education
Emory University, Rollins School of Public Health, Atlanta, GA
- 2007 – 2009: Postdoctoral Scholar, Robert Wood Johnson Health and Society Scholars Program
University of California, Berkeley, and University of California, San Francisco
- 2004 – 2007: Research Assistant, University of Washington, School of Social Work, Seattle, WA
- 2003 – 2007: Predoctoral Fellow, W.K. Kellogg Fellowship in Health Policy
Harvard School of Public Health, Boston, MA
- 2003 – 2004: Research Fellow, Collaborative Opportunities Program
Cambridge Center for Multicultural Mental Health Studies, Somerville, MA

C. AWARDS, HONORS, AND OTHER DISTINCTIONS

C.1. Awards and Recognition

- 2019: Outstanding Graduate Mentor Award, Auburn University
- 2018 – Present: Fellow, Academy of Behavioral Medicine Research (elected 2018)
- 2018: Editor's Choice Article, Psychoneuroendocrinology
- 2015: University of Maryland, College Park 17th Annual Research Leaders Luncheon, Honoree
- 2015: Selected to attend the Robert Wood Johnson Foundation, Health & Society Scholars, Leadership Development Workshop, New York, NY
- 2015: University of Maryland, College Park, 8th Annual University-Wide Celebration of Scholarship & Research, Honoree
- 2015: University of Maryland, Open Access Fund Recipient

- 2015: 2015 Martin Luther King, Jr. Grand Rounds Speaker, University of Michigan, Department of Psychiatry, Ann Arbor, MI
- 2014: RAND Summer Institute, Scholarship to attend the Mini-Medical School for Social Scientists, and the Demography, Economics, Psychology, and Epidemiology of Aging Conference
- 2007 – 2014: National Institutes of Health, Loan Repayment Program, Health Disparities Research, Department of Health and Human Services
- 2011: Meritorious Paper, Society of Behavioral Medicine, 32nd Annual Meeting and Scientific Sessions, Washington, DC
- 2008: Summer Workshop on African American Aging Research, Michigan Center for Urban African American Aging Research, Travel Award
- 2008: American Legacy Foundation Scholarship to Increase Diversity in Nicotine and Tobacco Research, Society for Research on Nicotine and Tobacco, Travel Award
- 2006: Best Student Abstract Award, American Public Health Association, Asian and Pacific Islander Caucus
- 2002 – 2003: Tuition Scholarship, Harvard School of Public Health
- 1999: Graduation with Honors in Psychology, University of Chicago
- 1998 – 1999: Psi Chi Psychology National Honor Society, University of Chicago Chapter
- 1995 – 1999: University of Chicago, Dean's List

C.2. Other Special Recognition

- 2016 – Present: Selected to be standing member of the Social Psychology and Interpersonal Processes (SPIP) Study Section, National Institutes of Health
- 2017: Keynote Speaker, Quint State Southeastern Symposium on Child and Family Development
- 2016: Keynote Speaker, College of Human Sciences Centennial Convocation, Auburn University
- 2016: Invited Keynote Speaker for the University of Nebraska, Minority Health Disparities Initiative and Research, Evaluation, & Analysis for Community Health, Minority Health Conference
- 2015: TEDx Grand Rapids Invited Speaker
- 2015: Martin Luther King, Jr. Grand Rounds Speaker, University of Michigan, Department of Psychiatry, Ann Arbor, MI
- 2014 – 2015: Advancing Faculty Diversity (AFD) Program, Office of Diversity & Inclusion, ADVANCE Program for Inclusive Excellence, University of Maryland, College Park, Faculty Fellow
- 2014: National Institute on Aging, Office of Special Populations, Scholar Spotlight
- 2014: National Institute on Aging, Invitation to Attend Society for Affective Science Pre-Conference for “Rising Young Stars”
- 2010: Invited Speaker for Robert Wood Johnson Foundation, Presentation for National Institutes of Health, National Center on Minority Health and Health Disparities
- 2010: Invited Panelist for the Institute of Medicine (IOM), LGBT Health Issues and Research Gaps and Opportunities

D. ACADEMIC, SCIENTIFIC, AND RESEARCH GROUPS

D.1 Academic, Scientific, and Research Groups

- 2019 – Present: Measurement of Racial and Ethnic Discrimination and Health, Johns Hopkins University
- 2019 – Present: National Heart, Lung, and Blood Institute Social Determinants of Cardiometabolic Health, Disease, and Health Disparities Working Group
- 2018 – Present: Diversity Scholars Network, National Center for Institutional Diversity, University of Michigan
- 2018 – Present: Core Center for Clinical Research, University of Alabama at Birmingham
- 2016 – Present: Auburn University, Health Disparities Initiative
- 2016 – Present: Standing member of National Institutes of Health, Social Psychology, Personality, and Interpersonal Processes (SPIP) Study Section (2016 – Present)
- 2011 – Present: Aging, Metabolism, Emotion (AME) Laboratory, Core Collaborator, University of California, San Francisco

2010 – Present: Gender Identity in U.S. Surveillance (GENIUSS) Group, The Williams Institute, University of California, Los Angeles
2013 – 2016: Maryland Population Research Center, Faculty Associate, University of Maryland
2008 – 2010: Sexual Minority Assessment Research Team (SMART), The Williams Institute, University of California, Los Angeles

D.2. Professional Memberships

American Psychosomatic Society
American Public Health Association
Society of Behavioral Medicine
Society for Epidemiologic Research

E. RESEARCH GRANTS

E.1. Ongoing and Awarded

NIH-NIDA R01-DA045773

07/01/2018 – 04/30/2023

National Institute on Drug Abuse

PI: Bowleg, Lisa

Title: Reducing Black Men's Drug Use and Co-Occurring Negative mental and Physical Health Outcomes: Intersectionality, Social-Structural Stressors, and Protective Factors

Description: This study aims to examine the effects of stress experienced in multiple domains, and the modifying effect of reliance on substance use, mental health, and physical health outcomes among Black young gay, bisexual men, and men who have sex with men during emerging adulthood. Role: Co-Investigator.

Auburn University

07/01/2018 – 06/30/2021

Presidential Awards for Interdisciplinary Research (PAIR), Tier I

PI: Chae, David H.

Title: Interdisciplinary Rural African American Research

Description: The objective of this project is to develop infrastructure for conducting interdisciplinary aging research studies in rural contexts. We will establish capacity at Auburn University to conduct epidemiologic studies of racial and rural aging disparities through the creation of three cores administered by the Center for Health Ecology and Equity Research (CHEER): (1) Community Engagement Core; (2) Sampling and Project Management Core; and (3) Biomarker Core.

Auburn University

07/01/2018 – 06/30/2021

Presidential Awards for Interdisciplinary Research (PAIR), Tier 2

PI: Suppiramaniam, Vishnu

Title: Enhancing Research Productivity by Establishing a Center for Neuroscience (CNS)

Description: The objective of this proposal is to establish a Center for Neuroscience (CNS) as a Flagship entity for Auburn University. The proposed CNS will feature several activities to foster extramurally-supported neuroscience research. Role: Co-Investigator.

NIH-NHLBI R15-HL140504

08/01/2018 – 07/31/2021

National Heart, Lung, and Blood Institute

PI: Fuller-Rowell, Thomas E.

Title: Contemporaneous and Early Life Predictors of Sleep and Sleep Disparities Among College Students

Description: The goal of this study is to examine how childhood adversity and contemporaneous stress combine to influence sleep and sleep disparities during higher education. Role: Co-Investigator.

NIH-NIAMS R01AR065493

05/01/2014 – 04/30/2020

National Institute of Arthritis and Musculoskeletal and Skin Diseases

(1 year no cost extension)

PI: Chae, David H.

Title: Psychosocial Stress and Lupus Among African American Women

Description: The purpose of this study is to examine whether the experience of racial minority stress is associated with disease progression and severity among African American women with lupus. This study aims to: (1) examine the role that psychosocial stressors experienced by African American women have in exacerbating SLE in this population; (2) identify social factors and psychological resources that are protective or buffer the effects of stress on SLE-related health declines; and (3) explore the biological implications of psychosocial stressors and SLE, in relation to elevated systemic inflammation and accelerated aging at the cellular level. This study will be the most in-depth investigation of the multifactorial nature of psychosocial stressors and their impact on SLE disease progression among African American women, and thus fills an important gap in the science on this understudied disease.

**Auburn University
Intramural Grants Program**

05/01/2018 – 04/30/2020

PI: Hunter, Evelyn

Title: Pathways of Disparities in Multiple Sclerosis

Description: This project explores pathways through which psychosocial stressors, including those tied to race, negatively affect disease severity in African American patients with multiple sclerosis. Role: Co-Investigator

NIH-NIAMS R01AR065493-S1

11/01/2017 – 04/30/2019

National Institute of Arthritis and Musculoskeletal and Skin Diseases

PI: Chae, David H.

Title: Research Supplement to Promote Diversity in Health-Related Research

Description: This project is an administrative supplement to NIH-NIAMS R01AR065493: Psychosocial Stress and Lupus Among African American Women. The goal of this study is to enhance the career development of a post-doctoral candidate through research experience, mentorship, training, manuscript publication, and grant preparation activities.

Alabama Agricultural Experiment Station

08/16/2017 – 08/15/2019

PI: Chae, David H.

Title: Black Women's Experiences Living with Lupus (BeWELL) Study

Description: This project will examine social determinants of health among African American women living with lupus and identify psychobiological pathways impacting disease severity.

DHHS-ACF 90FM0082

10/01/2014 – 04/30/2019

Office of Family Assistance

PI: Adler-Baeder, Francesca

Title: The Alabama Healthy Marriage and Relationship Education Initiative: Testing the Efficacy of Healthy Marriage and Relationship Education (HMRE) Community-Based Programs. Role: Consultant

E.2 Completed

**University of Maryland, College Park
Tier 1 Seed Grant Program (Relinquished)**

01/01/2016 – 12/31/2016

PI: Chae, David H.

Title: Discrimination and Health Among African American Gay Men Living With HIV

Through a mixed-methods design, this study will: (1) explore salient sources of psychosocial stress among African American HIV-positive gay men, and refine measures of discrimination for use in this population; (2) examine the utility of biomarkers of inflammation and cumulative physiologic damage in the context of HIV; and (3) obtain preliminary evidence of the impact of psychosocial stressors on mental, behavioral, and clinical health outcomes. This study will advance methodological knowledge on HIV-related research and also provide preliminary evidence for a grant submission to the National Institutes of Health to investigate how qualitatively unique psychosocial stressors shape health trajectories among African American HIV-positive gay men.

**University of Maryland, College Park
Summer Research and Scholarship Award (RASA) (Relinquished)**

06/01/2016 – 08/31/2016

PI: Chae, David H.

Title: Internet-Based Measures of Social Inequalities and Birth Outcomes

Description: This study examines the psychometric properties of an Internet query-based measure of racism at the area-level and its utility in predicting birth outcomes among Black women, which previous research has shown is susceptible to racism-related stress. In addition, a new Internet-based measure of bias against sexual minorities (e.g., gay, lesbian, bisexual groups) will be developed.

NIH-NIA K01AG041787

09/30/2012 – 05/31/2016

National Institute on Aging

PI: Chae, David H.

Title: Psychobiology of Racial Minority Stress and Cellular Aging

Description: The purpose of this career development grant is to gain a broad foundation of knowledge on psychobiological stress pathways, and more in-depth knowledge on telomere maintenance and function. This training is aimed at facilitating the integration of biomarkers of inflammation and endocrine stress markers, in addition to research on leukocyte telomere length (LTL) in epidemiologic studies of racial minority stress and health. The research plan which is aimed at: (1) identifying inflammatory markers and endocrine markers of stress that cluster with LTL and subsequently predict aging-related health outcomes, thereby providing evidence of biological mechanisms impacting LTL and disease processes; (2) examining whether racial discrimination is associated with LTL, and identifying psychological and biological factors that may be on the pathway linking this exposure and outcome; and (3) exploring other psychosocial factors associated with racial minority status, such as affective and cognitive responses to racial discrimination, coping, racial identity, in-group racial bias, and racial socialization, which may also impact LTL and aging-related disease outcomes.

Nurse Faculty Scholars Program Grant #70317

09/01/2012 – 08/31/2015

Robert Wood Johnson Foundation

PI: Woods-Giscombé, Cheryl

Title: Stress, Superwoman Schema, and Obesity Risk in African American Women: Developing a Culturally-Relevant Intervention to Reduce Health Disparities

Description: This study involves the investigation of the influence of stress, Superwoman Schema, and stress-related coping strategies (emotional eating and sedentary behavior) on obesity and diabetes risk factors in African American women. Role: Consultant

Robert Wood Johnson Foundation

07/01/2010 – 06/30/2012

University of California, Berkeley

PI: Nuru-Jeter, Amani M.

Title: African American Women's Heart and Health Study

Description: This study examines inflammatory pathways linking racial minority stress and cardiovascular health among African American women in the San Francisco Bay Area. Psychosocial variables include measures of racial identity, racial socialization, coping style, and stereotype threat. Role: Co-Investigator

NIH-NIMH R01MH084963

09/15/2009 – 06/20/2012

National Institute of Mental Health

PI: Lincoln, Karen D

Title: Risk and Protective Factors for Depression Among Racial Groups

Description: This study involves analysis of data from the Collaborative Psychiatric Epidemiology Surveys (CPES) to examine social and psychological risk and protective factors for depression across and within racial/ethnic groups – Asian, Black, Latino, and non-Hispanic White. This research focuses on heterogeneity across as well as within racial/ethnic populations to examine how differences in social arrangements and relationships impact mental health. Role: Consultant.

Robert Wood Johnson Foundation

01/31/2008 – 08/31/2010

Emory Race & Difference Initiative

PI: Chae, David H. and Adler, Nancy E.

Title: Discrimination and Cardiovascular Health: The Bay Area Heart Health Study

Description: This study focuses on the influence of racial discrimination on cardiovascular health outcomes among African American adult men between 30-50 years of age. Cardiovascular endpoints that were

examined were cardiovascular health history, medication use, and blood pressure. Psychological variables were dimensions of racial group identity, and cognitive and affective psychological mediators.

Department of Health and Human Services

07/01/2008 – 06/30/2010

Mathematica Policy Research

PI: Lincoln, Karen D., and Chae, David H.

Title: Stress, Marital Satisfaction, and Mental Health Among African Americans

Description: This study investigates the influence of stress on marital satisfaction and psychological distress among married African Americans using data from the National Survey of American Life (NSAL; 2001-2003). Two forms of stress that are pervasive and salient in the lives of married African Americans were examined – financial strain and experiences of discrimination. The goal of this project was to examine the effects of these stressors on marital satisfaction and psychological distress.

NIH-NIMH K01MH069923-03

01/01/2004 – 09/14/2009

National Institute of Mental Health

PI: Lincoln, Karen D.

Title: Racial Differences in Social Relations and Depression

Description: The aim of this project was to examine relations between psychosocial stressors, including negative interactions and socioeconomic deprivation, on mental health outcomes among racial/ethnic minorities. In addition, this project sought to identify social and personal resources which may mitigate the negative influence of stress on mental health. Role: Consultant

Ford Foundation

09/01/2006 – 09/30/2008

Institute for Gay and Lesbian Strategic Studies

The Williams Institute, University of California, Los Angeles

PI: Chae, David H.

Title: Assessment of Sexuality among Latino and Asian Americans

Description: This study examined sexuality among Latino and Asian Americans using data from the National Latino and Asian American Study (NLAAS; 2001-2003), and investigated implications of sexual minority status for discrimination and significant psychological distress (SPD). This study examined if discrimination may account for higher levels of psychological distress found in sexuality minority populations.

Ford Foundation

09/01/2006 – 09/30/2008

Institute for Gay and Lesbian Strategic Studies

The Williams Institute, University of California, Los Angeles

PI: Chae, David H.

Title: Working Class Sexual Minority Health

Description: This study focused on different dimensions of sexuality (self-identification and behavior) in relation to experiences of discrimination and mental health in a racially diverse sample of working class people recruited to the United for Health Study (2003-2004). This study identified salient sources of discrimination and psychological distress confronting working class sexual and racial minorities.

NIH-NIMH R01MH065871

06/28/2003 – 05/31/2007

National Institute of Mental Health

PI: Walters, Karina L.

Title: Health Survey of Native Americans

Description: The aim of this project was to examine the influence of social trauma and coping on health behaviors and mental health in an urban sample of Native American two-spirit, gay, lesbian, bisexual, and transgender. Role: Research Assistant.

NIH-NICHD R01HD049142

01/15/2005 – 12/31/2007

National Institute of Child Health and Human Development

PI: Takeuchi, David T.

Title: Education and Health Among Racial Groups

Description: The purpose of this project was to examine inter- and intra-group associations between measures of socioeconomic position and health among Whites, African Americans, Latinos, and Asian Americans. Role: Research Assistant.

NIH-NIMH U01MH062207

09/30/2000 – 08/31/2006

National Institute of Mental Health

PI: Takeuchi, David T.

Title: National Latino and Asian American Study

Description: The purpose of this study was to examine the distribution of mental disorders and service utilization in Latino and Asian American populations and to examine associations with psychosocial and demographic characteristics. Role: Research Assistant.

H. TEACHING, MENTORING, AND ADVISING

H.1. Courses Taught

HUSC 5950/6950 Seminar on Health Ecology and Equity Research

Auburn University, Human Development and Family Studies, College of Human Sciences

Description: This course provides student with exposure to specialized topics in health ecology and equity research. It is seminar style and features distinguished lecturers. Instructor Spring 2018, Spring 2019

EPIB 661 Epidemiology of Racial Disparities in Health

University of Maryland, College Park, School of Public Health

Description: Enduring racial disparities in health in the U.S. represent a critical public health dilemma. This course critically evaluates research on race, racism, and health from an epidemiologic perspective. Using a population-based lens, this course examines how race has been conceptualized and measured, teases out underlying assumptions, and discovers the sources of racial disparities in health. Instructor Spring 2016

EPIB 698J Epidemiologic Methods for Primary Research

University of Maryland, College Park, School of Public Health

Description: This doctoral-level course provides students with the knowledge and skills to design and implement epidemiologic research studies and to collect primary data. This course presents an overview of types of research designs, sampling methodologies, measurement issues, questionnaire design, and data collection procedures. Goals of this course include: (a) achieving competence in designing and implementing studies based on scientifically sound epidemiologic research methods; and (b) gaining the ability to critically evaluate health research and epidemiologic studies. Instructor Fall 2014

BSHE 540 Behavioral Research Methods

Emory University, Rollins School of Public Health

Description: This course provides students with knowledge about designing and conducting health behavior research and an overview of various types of research, with an emphasis on conducting survey research. Topics include experimental and observational research designs, sampling methods, measurement, questionnaire development, and survey administration. Instructor Fall 2012, Fall 2011 (2 sections), Fall 2010

BSHE 590 Capstone Seminar, Health Disparities

Emory University, Rollins School of Public Health

Description: Health disparities are inequitable and unjust patterns in the population-level distribution of disease. This course provides an overview of population-level theories of health, and analyzes major themes in the social determinants of health, including poverty, social class, and the role of economic policies; gender and sexuality; race and racism; area-level and neighborhood factors; and social interventions. This course reviews

empirical and theoretical literature on the effects of social forces in generating health disparities. Instructor Spring 2012

BSHE 590 Capstone Seminar: Race and Health

Emory University, Rollins School of Public Health

Description: Enduring racial disparities in health in the U.S. are traced not to “the problem of race” but “the problem of racism” – spanning multiple ecological levels and domains, and across various health outcomes – generating distinct patterns in resiliency and vulnerability to disease along the color line. This course contextualizes the persistent association between race and health as being informed by broader historical and socio-cultural forces. Specific topics that will be covered are: discrimination; intersections with socioeconomic position; place and race; immigration and migration; health care and policy; and processes of embodiment. Instructor Spring 2011

PH 255A Introduction to Social Epidemiology

University of California, Berkeley, School of Public Health

Description: This course introduces students to the field of social epidemiology and its role in understanding the social determinants of population health and health disparities. This course will provide a systematic and selected overview of literature in the field covering the history and development of the field of social epidemiology, theoretical perspectives, major topical areas, conceptual approaches, and current controversies related to theory, research methods, and research findings. This is a breadth course intended to provide an overview of the field of social epidemiology. Co-Instructor Spring 2008

H.2. Summary of Course Evaluations

Spring 2018: HUSC 6950: Seminar on Health Ecology and Equity

Spring 2018: HUSC 6950 (Seminar on Health Ecology and Equity)	Mean*
1. I was encouraged to interact with the instructor regarding course content (electronically, during office hours, in class, etc.).	6.0/6.0
2. I was provided opportunities to cooperate with other classmates about course material (electronically, inside or outside of class, etc.).	6.0/6.0
3. I was informed of the instructor’s high expectations for my work in this course.	5.8/6.0
4. I was provided with an evaluation of my academic progress at regular intervals during the semester.	6.0/6.0
5. I was provided with ample opportunities to apply my learning in this course.	5.8/6.0
6. I was prompted to think critically about the course material.	5.8/6.0
7. I was provided an environment that supported my learning.	5.8/6.0

* Measured from 1 (Strongly Disagree) to 6 (Strongly Agree)

			Course Mean*	Instructor Mean*
Fall 2014	EPIB 698J Section 001	Primary Research	4.9/5.0	5.0/5.0
Fall 2012	BSHE 540 Section 001	Research Methods	4.5/5.0	4.9/5.0
Spring 2012	BSHE 590 Section 001	Health Disparities	4.9/5.0	4.6/5.0
